

CropBioLife is a 100% natural, bioflavonoid based botanical foliar spray that enhances the nutrient uptake of plants and improves overall plant health and vitality.

Features:	<p>The Bioflavonoids in CropBioLife trigger the plant's production of phenolic compounds. The extra phenolics enhance a multitude of key plant processes not the least of which is photosynthesis.</p> <p>CropBioLife is capable of inclusion in Certified Organic input products.</p> <p>It has been independently proven to improve the health and vitality of plants</p> <p>CropBioLife is made from botanical extracts and will not harm beneficial insects</p> <p>Improves soil health and promotes root development and rhizosphere microorganism interaction</p> <p>Safe for people, animals and the environment</p>
Directions for Use:	<p>Mix with water and apply by spraying or fogging directly on foliage</p> <p>Ensure all foliage is made wet with spray or fog application</p> <p>Best applied early morning to avoid fast evaporation.</p> <p>The longer the leaves remain wet with CropBioLife the better.</p> <p>Contains only food grade ingredients so safe to use without a withholding period.</p> <p>Can be mixed with other foliar products. Check compatibility chart at www.cropbiolife.com.au</p>
Application:	<p>Use safely on trees, vines, vegetables, herbs, annuals, perennials, ornamentals and grasses</p> <p>Typical dose is 1 – 2mls per litre of water applied every 10 – 14 days</p> <p>Consult application rates and timing table for various crops at www.cropbiolife.com.au</p> <p>Can also be applied to seeds and cuttings via spray or fast dip. Do not soak for long periods.</p> <p>Can be applied with foliar nutrients for fast uptake</p> <p>Can be applied with dissolved Calcium</p>
Unit sizes:	Available in 5 Litre – 20Litre – 200Litre and 1000Ltr containers
Country of Origin:	Australia
Organic Certifications:	<p>NASAA Organic (Australia)</p> <p>BioGro Organic (New Zealand)</p> <p>CDFA and WSDA National Organic Program (United States)</p> <p>SOIL association (Europe)</p> <p>IMO (Chile)</p> <p>EcoCert (Canada)</p>
Testimonial Results:	<p>Increased Brix and flavour</p> <p>Improved flowering and flower retention</p> <p>Improved resistance to frost and drought conditions</p> <p>Improved food nutrient value of crop</p> <p>Improved root growth and soil health</p> <p>Increased yield</p> <p>Improved ripening</p>
Ingredients:	<p>Bitter orange extract CAS 72968-50-4</p> <p>Glycerine CAS 56-81-5</p> <p>Yucca Extract CAS 90147-57-2</p> <p>Organic Acid Blend</p>
Specifications:	<p>Clear deep red/brown medium viscosity liquid</p> <p>Bitter sweet odour</p> <p>Boiling Point of 105 DegC</p> <p>pH 3.5 (neat) and 5.8 (1% soln)</p> <p>Dilutes in water</p> <p>Specific Gravity 1.12 @ 20 degC</p> <p>Shelf Life is 5 years if stored at room temperature out of direct sun light.</p>
